VIBEPLATE™

"I've been using the VibePlate daily for almost a year now and I have to say that we are getting results faster than ever before. For example: Last week we were able to help reduce a 26 degree scoliosis down to 6 degrees in only 4 weeks! This would not have been possible without the VibePlate. The VibePlate is the best option out there for patients that need specific neuromuscular re-education." - The Chiropractic Life Centre, Manitoba

By incorporating the VibePlate into your treatment protocol and combining it with your treatments simultaneously, you can provide better, lasting results for your patients. Not only are you reinforcing the effectiveness of your methods, but you're also accelerating pain relief and recovery from a wide range of neuromusculoskeletal disorders with the help of the VibePlate.
