"Mississippi State Basketball uses the VibePlate in every aspect of our performance training. We use it in prehab, rehab, strength training, core workouts, and mobility. The functionality of it allows us to train on our feet in all three planes of motion, and mimic basketball patterns. It's a piece of equipment everyone should have in their weight room."

- Coach Deets, Director of Performance, Mississippi State Basketball

VibePlate is the foremost leader in innovation, development, and use of whole body vibration products.

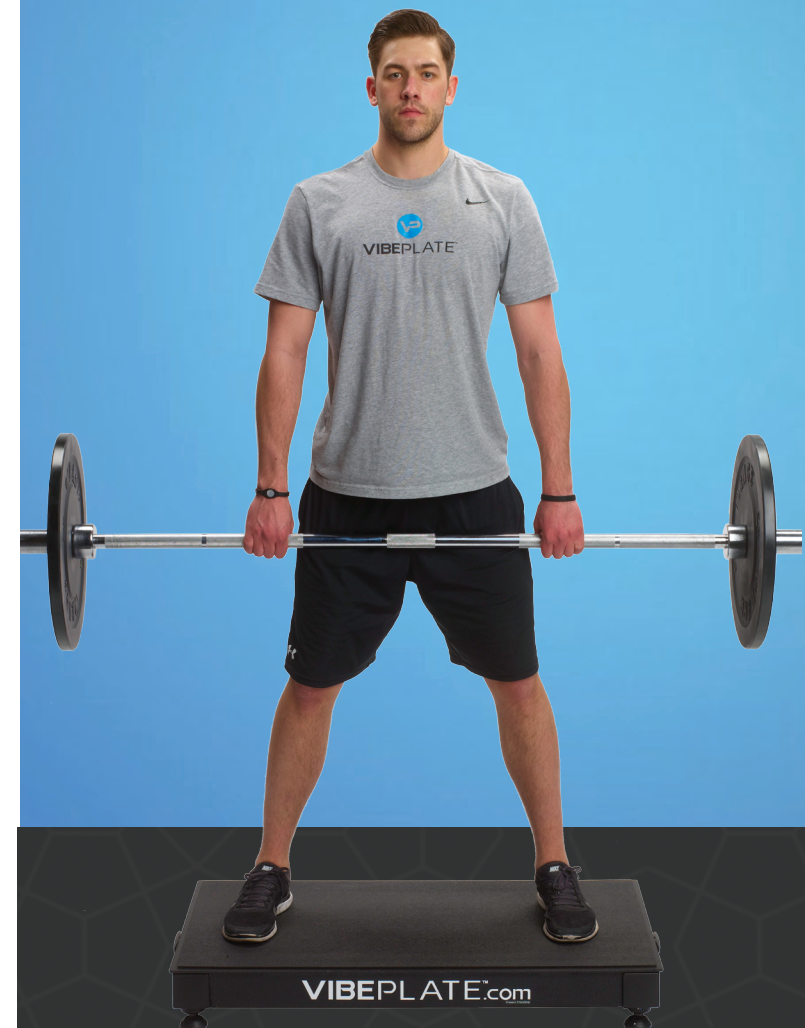

A major part of the process and success of the VibePlate products is due to implementing the correct and natural form of whole body vibration.
