"Being a celebrity Yoga coach to many Professional athletes I see a lot of gimmicks and hard fitness sells, and not many hold to their claims. Not only does VibePlate hold true but way beyond. I have seen the intensity of my yoga workouts increase, flexibility changes and in less time than usual. Most of all I have seen a reduction in stubborn cellulite in my body, what more can I say. It is a simple way to boost results and get to next level fitness"
